

The purpose of this letter is to request that you whole heartedly reject NAB petition 04-160.

I have for over thirty years listen to excuses rather than performance from every media source

in the United States, I am ashamed to see that once again, big business turns to restrictionism rather than improvement through competition... there is a reason that so many people are

turning away from those who would not listen, and improve... those who would not heed the

needs of those whose support they seek. In moving to progressive compannies and services

like XM Satalite radio, people seek to exercise their right to choose what they want.

I choose saatalite radio because the others have failed me and Xm is my only real alternative.

Please do not prohibit that alternative. PLEASE reject the NAB petition 04-160
